

Student Personal Reading List

Equine Natural Movement

Over the course of your studies, you will need to read 10-12 books from the Reading List. Please choose books on topics unfamiliar to you so you broaden your understanding of horses. Don't wait until Module 3 to start - aim for 3-4 books for each Module (as outlined in the homework).

Use this tool to keep track of what books you read, along with a few notes on each book and what you learned (at least 1-2 sentences).
