

## OUR PRACTITIONER PAGE

Once you graduate, we can post your contact info on our Practitioner Page.

The guidelines are different depending on where you live. If you live in a state or country that has no legal requirements to practice, graduation from our school is sufficient. If you live where further testing is required, you must finish that process first and then we can post your info.

As an example, Washington requires graduates to complete our course and then pass the NBCAAM national certification and also their state licensure requirements. In WA, we need you to have completed all that and then we can post your info.

Once you are done with all that, please send the following info to  
<[school@EquineNaturalMovement.com](mailto:school@EquineNaturalMovement.com)>

Name  
areas you work (city or county or states)  
phone  
email  
website if you have one

and a smiling full-frame picture of your face (with or without a horse).  
Be sure we can see your eyes.
